

SAMSUNG

The Wall

IWA Series

The Wall. Make a bold statement.

Realize the full potential of The Wall.

Innovation doesn't rest. It is a relentless pursuit to create unrivaled experiences. An ambition to inspire others with greatness. This unending quest has culminated in Samsung pushing the boundaries of innovation yet again. Based on a rich heritage of R&D and accumulated expertise, the potential of The Wall can now be fully realized. A display that transforms the existing concept of LED screen. A display that goes beyond anything else available in the market today. The Wall makes a bold, breathtaking statement like no other. The possibilities are endless. And its potential is limitless.

Accurate Picture Quality

- Deeper black color and contrast
- Vivid, vibrant color purity
- Accurate color mapping and grayscale expression

Optimal Picture Quality

- AI optimized visuals
- Advanced picture refinement and dynamic range
- Smooth, judder-free visuals

Enhanced Installation

- Pre-adjusted seam between modules
- Simple, cable-free connection

Flexible Design

- Multiple installation options for any location

Proven Safety

- Blue light eye protection
- Electromagnetic wave minimization

Advanced Usability

- Flicker-free visuals with screen synchronization
- Simple 8K playback with just one box
- View up to four sources on one screen

Key features

Black Seal Technology

An abyss of depth

A deep black background blankets the screen with perfect uniformity, creating a seamless canvas for purer black levels with enhanced depth that delivers unparalleled contrast and immaculate detail.

Ultra Chroma Technology

Superior color purity

Colors leap to life with spectacular vibrancy to recreate scenes as if you were there in real life. Narrower wavelengths produce RGB colors two times purer* and more accurate than conventional LEDs.

* Figure is based on internal testing standards against Samsung's conventional LED Signage.

20bit Processing

Colors mapped to perfection

The Wall's 20bit processing presents exact color mapping with faultless accuracy. Deeper bit depth at low greyscale also delivers extraordinary contrast ratio and smooth, natural tonal gradients.

Linear Grayscale

Continuous natural shading

A precise linear grayscale showcases intricacies in every scene, naturally delivering textures, volume and shades. The elevated continuity pulls you further into your content for unbroken immersion.

Key features

MICRO AI Processor

Instant AI optimization

Every second of content is instantly analyzed and optimized for perfect picture quality. The powerful AI processor delivers superior visuals in any size up to 8K resolution, enhancing contrast and removing noise.

MICRO HDR

Dazzling dynamic range

Reimagine the limits of conventional screens with advanced picture refinement—HDR10/10+ and LED HDR—to illuminate ideal peak brightness and contrast in every scene for precise, true-to-life imagery.

MICRO Motion

Smooth, seamless motion

The Wall automatically converts standard 60Hz signals to 120Hz, removing motion judder in fast-paced action for smoother streams and a seamless viewing experience, every time.

Factory Seam Adjustment

Installation reimaged

Installation is transformed by eliminating module-by-module seam adjustment. Now installers adjust only per cabinet, saving time while improving mechanical quality for immersive viewing.

Docking Connection

Connection without cables

The Wall enables simple and easy installation with a cable-less design. Minimal signal or power cable connections are required between cabinets, even in the event of any module repair service.

Key features

Endless Design

No Compromise creations

Design buildouts to your exact specifications thanks to The Wall's endless installation possibilities. Hang from walls and ceilings, curve around pillars or angle from edges. The choice is yours.

Proven Safety

Certified safety, maximum protection

Keep eyes comfortable and safe with TUV Rheinland Eye Comfort Certification, minimizing harmful blue light, while EMC Class B certification minimizes electromagnetic waves for advanced protection.

Simple 8K Playback

Powerful 8K playback with just one box

The Wall enables 8K content playback with just one S-Box, as well as 16K content playback horizontally with the new and improved S-Box performance, delivering more pixels with enhanced precision.

On-Air Functionality

Expertly engineered for any studio setting

The Wall is built for any studio environment, ensuring screen synchronization and supporting an industry top level 7,680 Hz refresh rate. Plus, the refresh rate can be adjusted based on camera frequency, minimizing flicker lines.

Multi View

Simultaneous source experience

With Multi View, The Wall enables simultaneous multi-source playback from up to four sources, all on one screen, without any additional splitter required for dynamic content display.

Specifications

Model		IWA		
		IW008A	IW012A	IW016A
		LH008IWAMWS	LH012IWAMWS	LH016IWAMWS
